### **T&T Chamber's Business Outlook**

The Trinidad and Tobago Chamber of Industry and Commerce will host its Business Outlook breakfast meeting on Wednesday June 27, 2018.

As companies enter their annual planning sessions, this timely event will address a number of questions that organisations must answer if they want to make bold moves to create positive, new outcomes. The meeting will address the true impact of the recession on savings and consumer spending, and the new market opportunities and incentives that are available. There will also be discussion about how to revise projections, rethink and re-engineer your business, and determine which investments are worthwhile pursuing.

Once again, the T&T Chamber will assemble an influential panel reflecting five distinct perspectives: the manufacturer, the investor, the financial services provider, the energy sector, and the Government of Trinidad and Tobago. The panellists include Travis Ali, Executive Director of Advance Foam Ltd.; John About, Chairman of Fouraime Enterprises and Superior Hotels; Nigel Edwards, Executive Director of the Trinidad and Tobago Unit Trust Corporation; Gerry Brooks, Chairman of the National Gas Company of Trinidad and Tobago, and Senator the Honourable Paula Gopee-Scoon, Minister of Trade and Industry.
