
MEDIA RELEASE

October 8, 2018

The T&T Chamber continues to support local business

The Trinidad and Tobago Chamber of Industry and Commerce has noted the points of view being expressed across a range of media regarding developments at the T&T Chamber's Tobago Division, an arm that is run by its own executive management committee and elected by the Tobago Membership.

The T&T Chamber has represented the interests of **both** islands' business sectors for over 139 years. Over the past 45 years, we have provided both financial and administrative support to the Tobago Division, and have always been guided by the input of the executive management committee on matters pertinent to Tobago. We have regularly shown our support by advocating for the objectives of Tobago's business community.

We are disappointed that such points of contention have emerged within the committee, and that these have led to the current impasse – especially since the Chairman, Vice Chairman and indeed the full committee, were elected by the Tobago membership earlier in 2018.

The Trinidad and Tobago Chamber of Industry and Commerce remains committed to our membership, and will work with the members of the executive management committee as we continue our efforts to restore the equilibrium of the Tobago Division. It is critical that the best interests of Tobago remain at the centre of the process.
