ANNOUNCEMENT OF CHAMPIONS OF BUSINESS 2021: CATEGORY FINALISTS FOR BUSINESS TECHNOLOGY

We are pleased to announce that the three finalists have been selected in the category of Business Technology in the Champions of Business Awards 2021. One finalist will be selected to receive the award, and announced at the Awards Finale, which will be televised on November 19, 2021.

The finalists (in no order of precedence) are as follows:

eboxTENDERS Limited:

eboxTENDERS®, is a Software as a Service (SaaS) Cloud Platform that uses world class technology to facilitate a leading-edge Supply Chain Management Solution through digital transformation. Formed August 2016, it was introduced to the market in 2018.

The platform is considered to be hyper-efficient, massively scalable and defensibly secure. It is hardware Agnostic and is not coupled to any hardware specific technologies. The collaborative platform is paperless, created to increase efficiency and drive down costs of doing business, while providing valuable technical and customer service support. It offers vendor management, eRFQs, e Tenders and eAuctions which facilitate reverse bidding. The solution is backed by industry leading security and cloud-based architecture, hosted on the Amazon Web Services (AWS) platform.

The eboxTENDERS Cloud Platform is accessible on any devices with an internet connection. Currently, they engage with a number of stakeholders locally, regionally and worldwide.

medl Limited:

medl uses technology to improve healthcare and medication via an online pharmacy. medl offers doctors and users of prescription drugs free access to a secure end-to-end prescription platform which provides contactless delivery of prescribed medications, refill reminders and support and advice from in-house pharmacists. Doctors can also monitor patients' medication and compliance.

This solution also reduces medication costs for platform users since the online business model cuts out the cost of a brick and mortar retail establishment. medl is highly relevant particularly to those with accessibility/mobility issues and also in the context of COVID-19 as measure to

reduce exposure for high risk groups dependent on prescription drugs to control serious conditions.

Novo Farms Limited

Novo Farms is a division of the Novo Group. It was established by Glen Ramdhani in 2017 for the purpose bringing transformational change within the agricultural sector using innovation. At the beginning as an agri-tech start-up it used a technology platform to replicate temperate climatic conditions for foreign crop production.

The company incorporated its technological experience and assimilated its services into the agro-processing initiative with the ability to monitor crop data analytics and trace elements from source of farmer's. The technology also includes solutions enabling a full value added experience from farmer to consumer.

Novo farms used the period to research, develop, plan and implement the product which is now live today, that is, the Novo farms agro processing facility which is the foundation for further expansion into this sector using innovation as the catalyst. The agro-processing facility was officially commissioned on the September 12, 2021.

The products are currently retailed at Massy Stores and are expected to shortly be available at over 300 stores nationwide. Both local and International customers can access the online e-commerce system from our website which was built by Novo's technology division.
