Small economies, big plans

Established 30 years ago, the Caribbean Single Market and Economic Union (CSME) has achieved over the past three decades a number of milestones in order to advance the region's economic growth.

The Caribbean Single Market and Economic Union (CSME) was established in 1999, the vision was to create a single, regional economic zone. The CSME, which would facilitate trade and investment for business and foreign investment, was facilitated by the free movement of goods, services, and extra-regional trade. Thirty years have since passed, and the CSME has achieved this goal.

The background to the CSME, immediately after the formation of the larger Caribbean member states (Trinidad and Tobago, Barbados, Jamaica and Guyana) - simultaneously, the CSME encountered serious economic difficulties. Dr. Alvin Hilaire, then a senior economist with the International Monetary Fund, wrote an article reviewing the countries' strategies for economic stabilisation.

Trinidad and Tobago and Jamaica both sought to address their range of remedial actions including debt, currency devaluations, public expenditure cuts, and intervention in the services sector. These measures came at a high cost to the respective economies.

Barbados's major sectors - tourism, manufacturing - were all declining, and

Caricom better off. We have to be right, in the long run, to achieve our goals.

defaults on foreign loans, and continued to decline precipitously. The CSME's increased its debt, and continued to decline.

trying to deal with the crisis which involves a restructuring of the CSME objectives have not been achieved.

ambitions set out in the CSME objectives have not been achieved.

On reflection, one can argue that the CSME objectives have not been achieved. Today, by and large, the CSME objectives have not been achieved.
