### T&T Chamber Commends the Minister of Finance for the Swift Action

The Trinidad and Tobago Chamber of Industry and Commerce commends the swift action taken by the Minister of Finance to alleviate the pains experienced by importers with the clearance of increased packages and shipments over the Christmas Season.

We also recognize that for this action to have taken place so quickly, the Minister would have been putting things in place previously, so the reaction time in this instance was greatly reduced.

We look forward to our continued collaboration, cooperation and future dialogue to ensure greater efficiency in the interest of our national community.
