

KAIS

MANUFACTURING LIMITED

COMPANY PROFILE

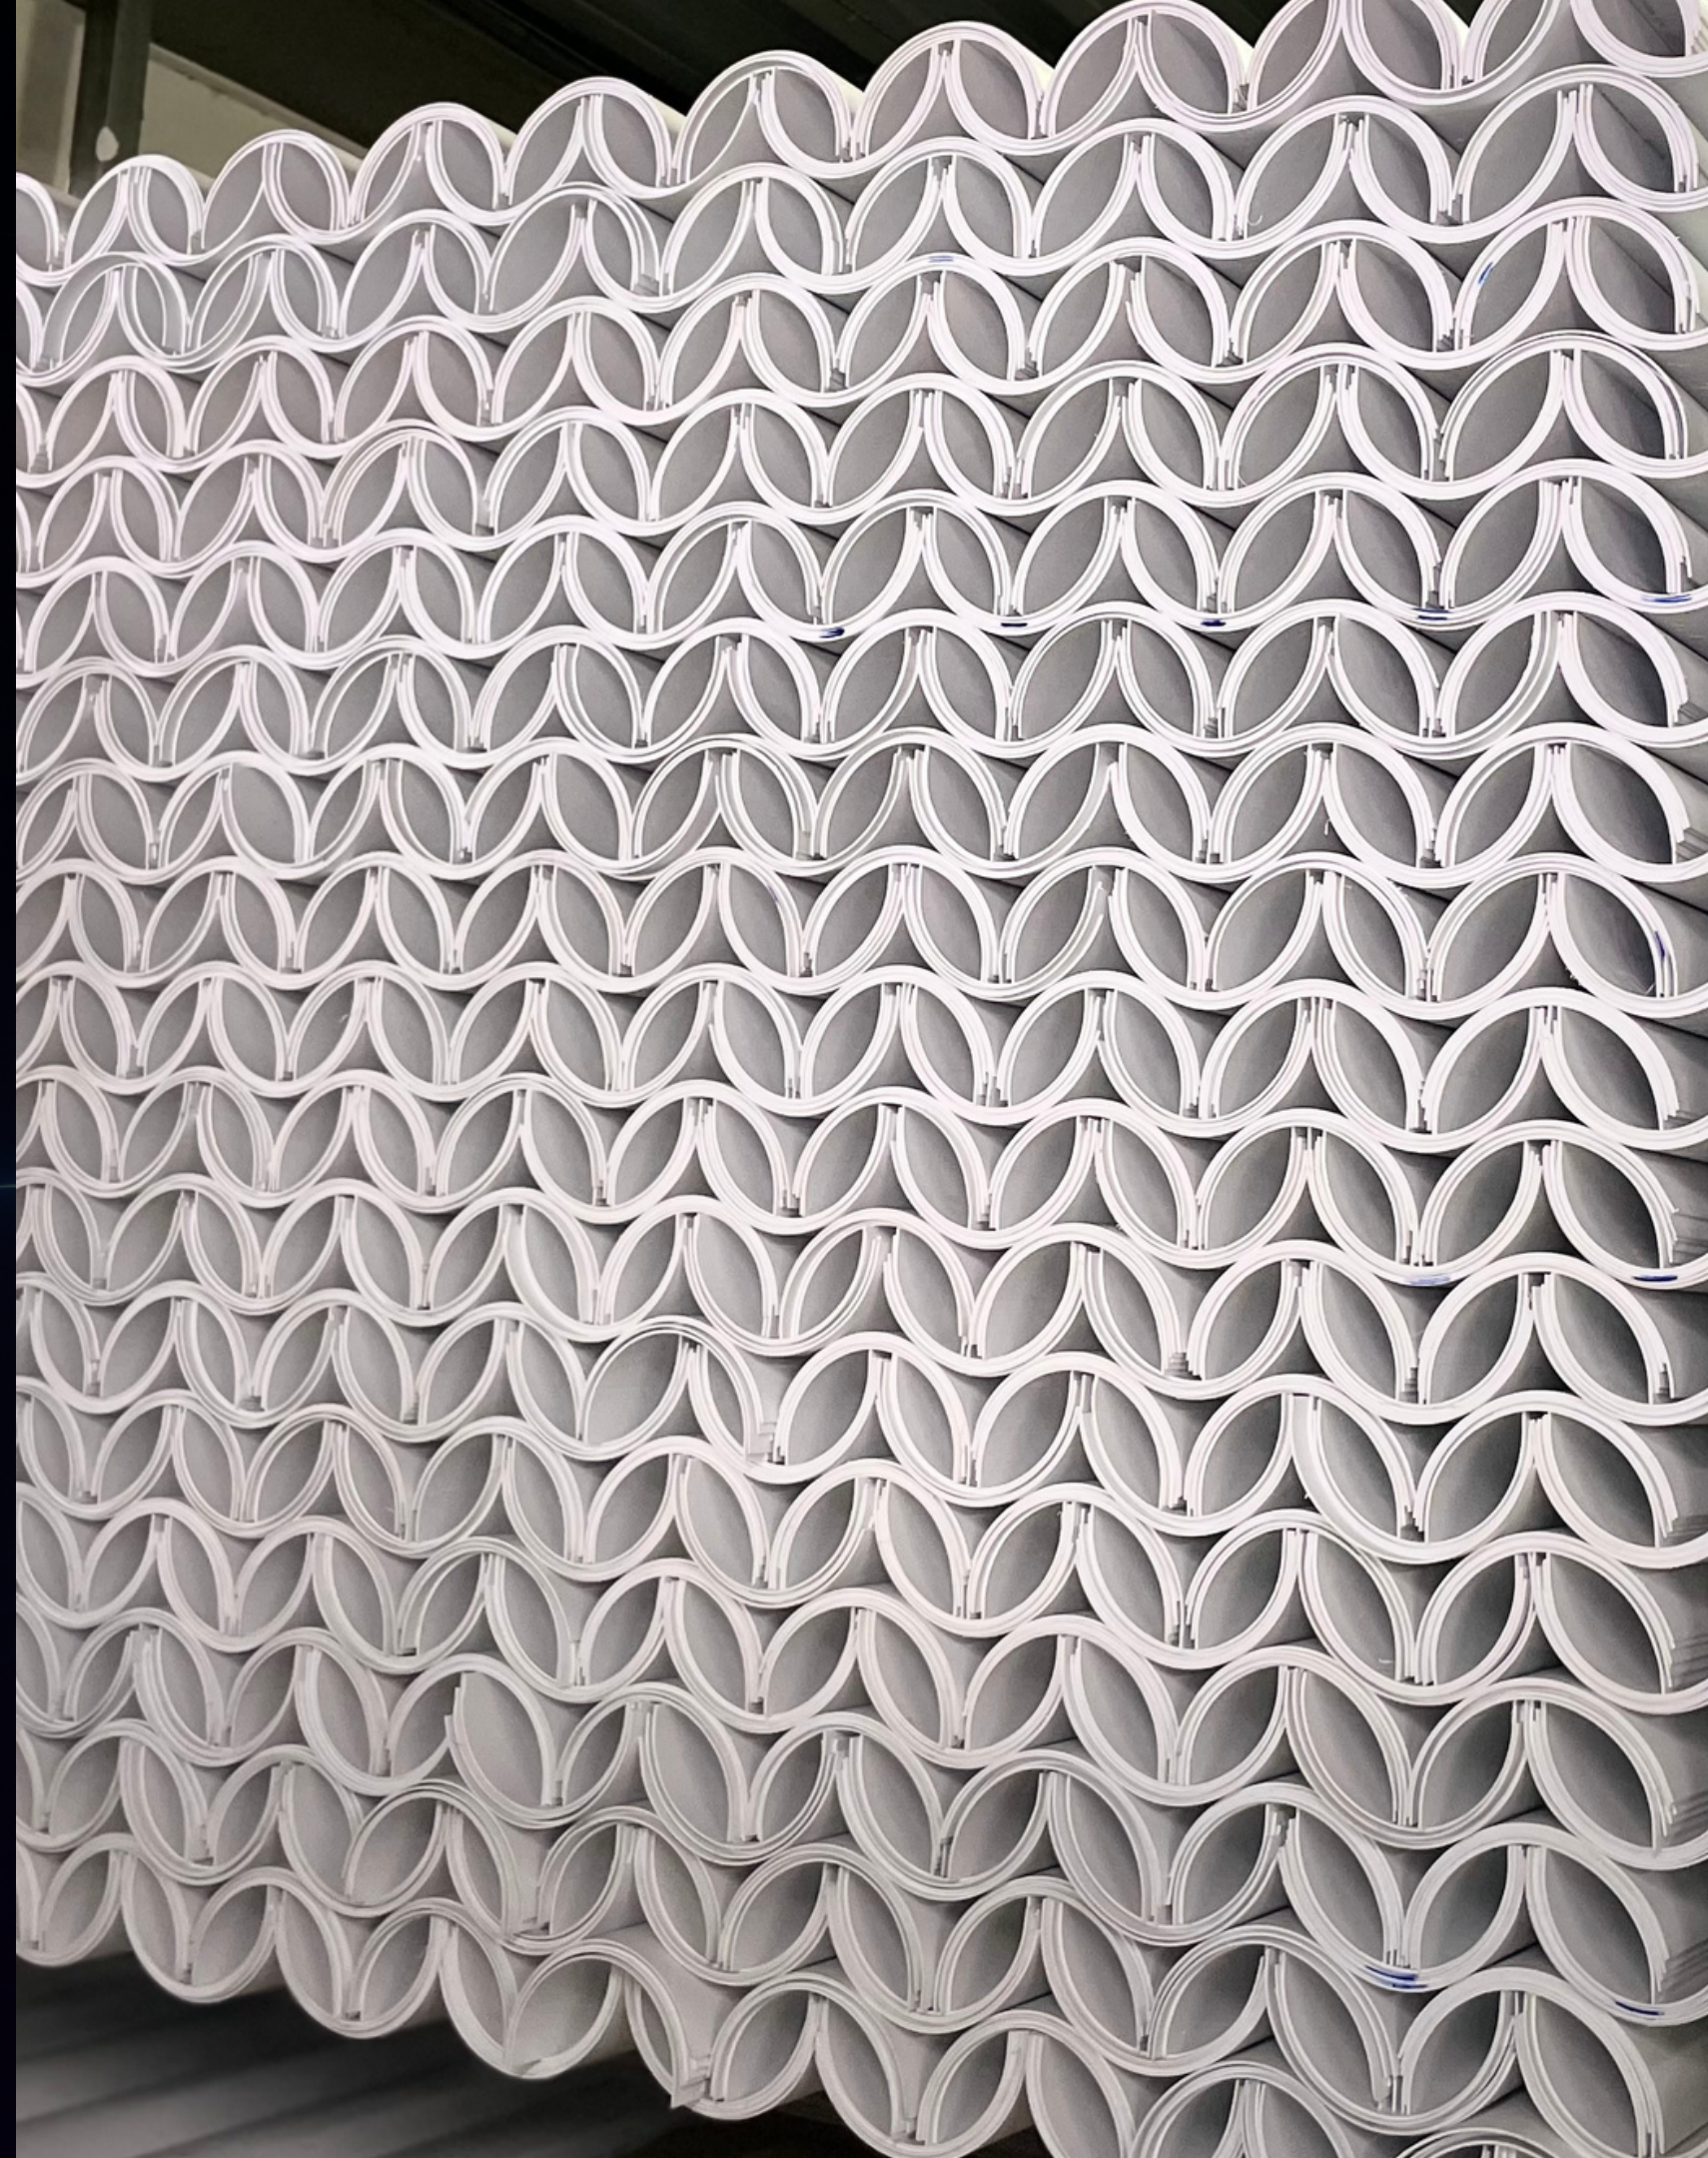

COMPANY INTRODUCTION

Originally founded in 1997 by the late Krishna Sooklal in Trinidad, operating from this home under the name KS MANUFACTURE & SALES. Krishna Sooklal (nicknamed Roy) used methods of heat forming by hand and cutting all guttering and fittings using pipes in the earliest part of his operations. Quickly growing, Krishna Sooklal built his factory in 2003 and purchased machinery in 2009 to commence manufacturing. This dream passed with Krishna Sooklal in early 2016. KAIS MANUFACTURING LIMITED was established by his wife and eldest son soon after his passing. The company suffered another tragic loss after Mrs Sooklal passed away, in 2017. KAIS then became a husband-and-wife partnership. It has since modified and expanded its raw material, moulds and machinery, making the dreams of the late Krishna Sooklal come alive. Today, KAIS can proudly boast about the company's strong, unbreakable MARKS® brand products.

OUR PRODUCTS

KAIS is a small manufacturer of PVC gutters and fittings, square downpipe and construction buckets, based in Trinidad & Tobago.

MARKS is the most innovative Gutter System available on the market today. Designed to withstand tough climatic conditions, its unique formulation of PVC with the addition of titanium dioxide guarantees an ultra-high level of protection against the effects of harmful U.V. Rays.

Our Strongy Industrial buckets are made from Polypropylene with a capacity of 13 litres. Equipped with a galvanized coated robust metal handle and practical funnel. Suitable for both home and industrial use. We spare no effort to make our products multifunctional, reliable in any conditions, safe and comfortable to use. Ask for the blue handle bucket.
