

Company Profile

MCS Software Ltd. is a company dedicated to development of software for business. For over 15 years we have been driven by a passion for technology and achieving all things with a vision for....

“Maximizing the efficiency of business through the use of software.”

We not only create the software you need to run your business but also provide unparalleled technical and after-sales support.

Over the years we have listened to feedback from our clients and worked to constantly improve our software so that it is the best option for your business.

Our History

Over the past decade the development team at **MCS Software Ltd.** have focused on developing software to serve the three critical areas of any organization: Payroll, Time & Attendance and HR Management. We have built a reputation in the market for efficiency, support, knowledge and expertise specifically in the area of Payroll and Tax related issues.

MCS Software currently has several software options that will help you increase productivity and efficiency.

How we can help you?

LEADERS

Leaders in payroll software since 2002

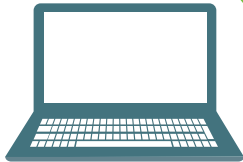

SUPPORT

Dedicated support team with over 10 years' experience.

FLEXIBLE

Our software is suitable for any size business in the Caribbean.

2015

Launch of MicroPay 3.0. New layout, new features, improved security.

2018

MicroPay currently in use by over 1100 companies.

In business there are many tedious and repetitive tasks undertaken daily;

- Payroll processing with complex calculations, utilizing valuable time.
- Time and Attendance monitoring which is often calculated with errors if done manually.
- Human Resource tracking with a multitude of forms, reports and requests to manage.

The right software will simplify these tasks, reduce errors, thereby saving you time and ensuring an increase in your productivity and efficiency.

Our Products

micropay VERSION 3.0

Our flagship product is currently in use by over 1100 companies making us the leading provider of payroll software in Trinidad & Tobago. MicroPay has proven to be secure and flexible, making it the preferred choice for businesses.

MicroPay was originally developed specifically for local companies, but has been expanded to facilitate the needs of businesses around the Caribbean such as, Jamaica, Barbados, St. Lucia, Grenada and most recently Guyana.

Is MicroPay right for you?

If you're looking for simple and effective payroll management this is the software for you. It is suitable for every type of organization – private, public or government – with payrolls of 25 or fewer employees, or even an unlimited complement. It is unrivalled even when compared with international software programs which have been adapted for local payroll processing.

Why you need MicroPay?

You want software that will give you flexibility, security and simplicity. MicroPay will do that and more. Your payroll processing is easily handled in less time, with more accurate calculations and flexible reporting. Pay-slips can be emailed to employees, export data to your accounting software and handle monthly statutory deductions/contributions with one-click. Annual preparation of TD4's is equally simple as forms can be automatically filled in with the necessary data and printed. You will also have more security from self-managed data, customizable access levels and enhanced audit tracking.

Our Products

microHR

MicroHR® Human Resource Management Software

The skills and contributions of your people is the single most valuable asset in any organization and managing the complexity of salaries, benefits, recruiting, and performance management can become complicated for an HR department.

MicroHR is an affordable HR software package with an extensive feature set that gives you easy access to all employee data so you can effectively manage your workforce.

With a new Employee portal you now have an electronic link between HR managers and employees. Staff involvement at every level is improved, enabling employees to maintain and update their personal data, request leave, job letters and many other tasks. Recruiting becomes simplified when potential recruits enter their data which can then be used to create profiles upon employment.

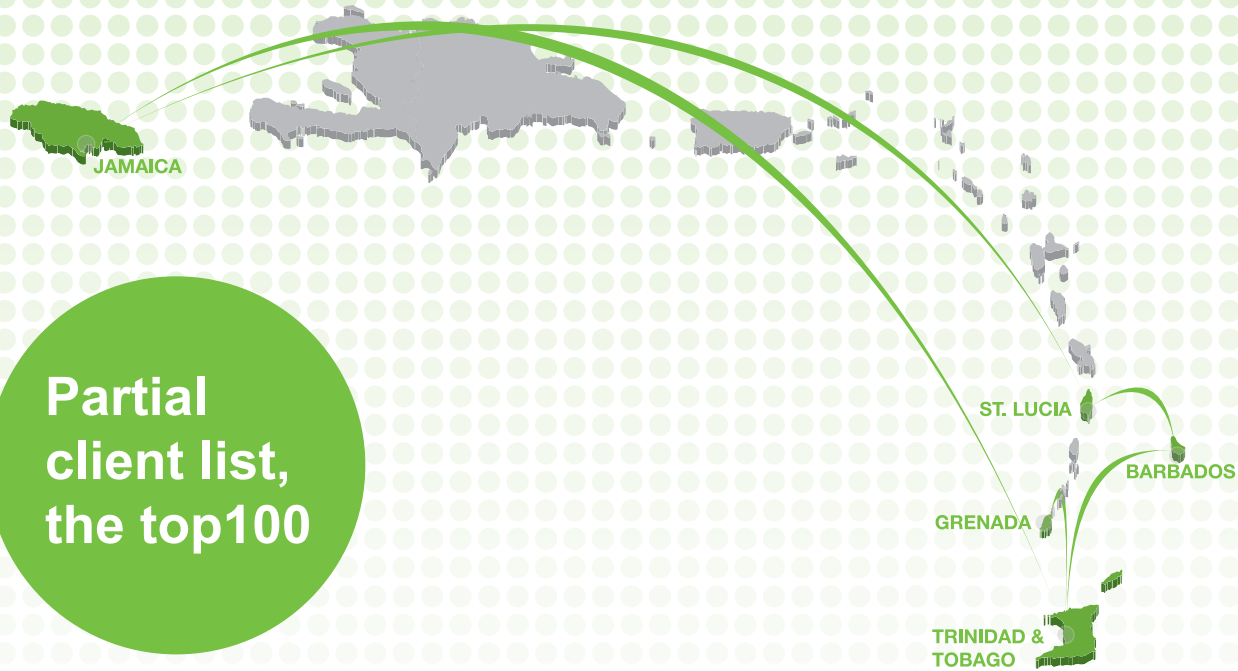

timeclock

MicroPay® Time & Attendance Module

Maintaining detailed, accurate time and attendance records is easier when integrated with MicroPay Payroll Software. This module interfaces seamlessly with our range of advanced biometric devices, facilitating accurate data collection, overtime calculations and attendance tracking which are then recorded to MicroPay for automatic payroll preparation.

We offer a range of biometric devices which feature the latest in technology and functionality to support the needs of any business. Versatile units can be used indoors or out, are water resistant, portable or use the most advanced technology.
